

Ruth Ann Roney, Tuttle Orchards, Inc.

4th Generation Tuttle

Owner, General Manager

What is your
favorite farm
memory?

Who Are
the
Tuttles?

The Roney Family

(this is the Tuttle family....through the generations our last name changed to Roney but we are still Tutttles)

Mike & Helen Roney
(3rd Generation)

Owners

Ruth Ann Roney
(4th Generation)

General Manager

Thomas Roney

Production &
Maintenance Manager

*There are 5 other members of the 4th generation who do not work at the farm full-time, but you may get to meet when they visit.

Who has
been to
Tuttle
Orchards?

How would
you explain
what Tuttle
Orchards is?

It All Starts at the Farm!

Farm Store

1970's

1990's

How we got from then to now?

- Diversification
- Change with the Times
- Increase entertainment activities and family events
- More full time family members working in the business.
- Gradual improving and changing every year over the long haul.

What all do we do now:

- Grow Apples & Veggies
- Make Apple Cider
- Grow Plants in Greenhouse
- CSA/or Box of Produce Program
- Retail Store
- Café Year Round and more food service in the fall
- Donuts
- The FarmYard
- Events
- Education
- Fall Experience

OUR VALUES

- Excellence in agriculture permeates everything we do.
- Cultivating a spirit of caring and cooperation.
- Service with integrity.
- Education that brings agriculture to life.
- Sustainable stewardship.

Production Agriculture: While many know Tuttle Orchards as an agritourism destination, Tuttle grows over 100 acres of specialty crops including 16,000 bushel apples (approx. 50 acres), 30 acres of pumpkins, 25 acres vegetables, greenhouse crops, and high tunnel vegetable production. Tuttle expands the amount of produce grown each year and will be planting 15,000 additional apple trees in 2026-2027. Tuttle also supplies over 1,000 bushels of apples for local schools annually.

Agricultural Focus in Various Areas:

FarmYard

Farm Store

Food

Education

**Spirit of Caring and
Cooperation**

Spirit of Caring and Cooperation:

- Working with other local farmers and artisans when it makes sense in our store.
- Continually working to try to foster a work culture of cooperation.
- Working with local food banks and food pantries as we are able.

Tuttle's 9 Good Farming Principles:

1. Offer great service to guests and coworkers.
2. Commit to quality.
3. Cultivate healthy work culture.
4. Be flexible and teachable.
5. Take initiative.
6. Be reliable, hardworking people.
7. Timeliness matters.
8. Be good caretakers: use what we have to make the world a better place.
9. Farming is not magic! All the small actions matter.

► Service

Service:

- Serving our guests
- Serving our community
- Jobs - for many Tutttles is a first job experience to learn important life skills.
- Service to our staff: we really believe that leadership is service to our staff so that they can serve guests well.

Education
that brings
agriculture
to life.

► Education: In the last decade, 150,000 participants have come to the orchard for educational field trips that highlight agriculture.

The background features a soft-focus photograph of a hand gently holding a small plant seedling. The scene is bathed in bright, natural light, creating a warm and hopeful atmosphere. Overlaid on this image are several translucent green geometric shapes, including triangles and polygons, which add a modern, design-oriented feel to the composition.

Sustainable Stewardship

How do we farm in a way that allows us to be in this for the long haul?

- Focus on Retail
- Focus on listening to customers and trying to choose the Next Right Improvement for the business and guests that also is financially sustainable.
- Choice to be closed on Sunday to allow for sustainable pace for staff.
- Focus on diversification and continued improvement

FUTURE AT TUTTLES:

Keep doing more of what we are doing...

- Living out our Values
- Growing Quality Food and Plants - Being a Horticulture Farm
- Providing Quality Farm Based Experiences for People
- Provide Agricultural Experiences for People through
 - Events
 - Retail
 - Food
 - Education

HONEYCRISP APPLES IN FARM STORE

New things for fall 2025. Here's some of what we are excited for:

- We've planted even more flowers in Virginia's Cut Flower Garden.
- The FarmYard has a lot of new fun things for the kids....new kid's farm market with slide, new Tommy's fix and fuel with trike track, new shaded areas, new activities, large sandbox, expanded little farmer area....
- The snack shack is offering slushies this fall. That's right you can get your apple cider slushies and your fresh made Tuttle's kettle corn right from the Snack Shack in the FarmYard.
- In the donut department....we're going to be offering some themed weeks in September with their very own donut flavors on some weekdays. Check out the events photos for the details. We've also got a bigger donut machine so we can make more donuts for you.
- Coming to eat we've added some large tents to provide a lot more shaded seating while you are enjoying your lunch from the Grill.
- The Farm Store has a lot of fun new items as well.
